

Revit MEP 2010 Update

Description

Duration: ½ Day

Students use Revit® MEP 2009 to learn about building information modeling and the tools for parametric MEP systems design and documentation. Students participate in this hands-on training session to learn the updated feature set of Revit MEP 2010, transitioning from 2009.

Revit MEP Update Outline

INTERFACE

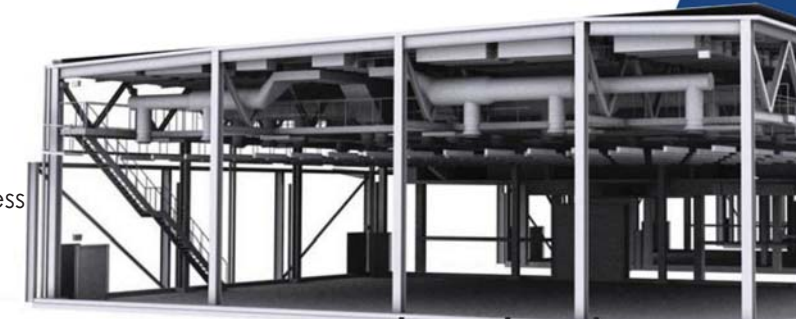

- Ribbon.
- Seek
- Enhanced tool tips

ENHANCED USABILITY

- Additional Content.
- Automatic Space Creation.
- Improved people and electrical load settings
- Occupancy schedule settings
- More weather data
- New native load calculation engine
- Examine analytical surfaces & openings
- New analysis reports
- Import part from Inventor 2010
- Examine an analytical model before exporting to a .gbXML file
- New "Export Complexity" setting
- Supports .gbXML version 0.37

INTEROPERABILITY

- Native 64 bit.
- API Enhancements (External applications can layout panels on the Add-ins tab. Read & write access to HVAC and Piping data)
- Export to Civil 3D and Export / Import from Inventor using Adsk files.
- gbXML Improvements.
