

KarelCAD partners with HP to provide Design Hardware for Autodesk Solutions

KarelCAD is pleased to announce the launch of a new [Hardware Division](#).

As a part of our on-going commitment to Customer Service here at KarelCAD we have formed a strategic partnership with Hewlett-Packard to supply the renowned HP range of Autodesk Certified Workstations, Professional Series Monitors and Large Format Printers.

With the introduction of a dedicated [Hardware Division](#), KarelCAD is now in a position to offer Designers, Architects, and the professional community of Autodesk users a complete solution.

KarelCAD is excited to bring this new technology and service to its clients, if you wish to review your hardware needs, please click on the link below and one of our dedicated hardware solutions team members will contact you to discuss your requirements.

We look forward to assisting your business in achieving its potential with a complete design solution.

“By providing the best design hardware to partner with your Autodesk Solution KarelCAD is aiming to help your design team get the best from your design systems. Our onsite training and integration programs have been designed to give you the optimum software and hardware setup, and also train and test your team and give you a solid platform to move your designs forward”

“KarelCAD has partnered with HP to provide the design industry with access to all levels of HP Solutions including the new Z-Series Workstations, Elitebook laptops, Blade Server Systems, Printers and HP Monitors and digital displays.”
